Week 3: CSS, Animations, and Forms in React

Portfolio Project: User Experience Design

Portfolio Project: User Experience Design

Done: View

Done: Make forum posts: 1

Instructions

1. Publish your report in this forum by replying and attaching your report. A PDF is the preferred file format. Please follow the template described in the previous activity as you develop your project ideation. Then, engage with your fellow classmates as they review your project and ask questions.

2. Review your classmates' reports, and provide feedback or ask questions on at least 2 other projects.

Note: If you are working on the project as a group, then you are welcome to only post the project details once. Once it has been posted, the other students can mark this activity as complete after completing the peer reviews, by making a post to note that they are on the team of the student who posted the project, e.g. "I am on ___'s team and they have posted our project details."
